

Tug Rise POWERED TUG

The Tug Rise pedestrian operated electric tug has been designed to tow on slopes or ramps, and is capable of towing up to 1 tonne on a 15 degree ramp with ease.

The Tug Rise is the ideal solution for moving 660 litre and 1100 litre bins on ramps with an incline of 1:4. Universal towing devices (to suit 660 and 1100 litre bins) are also available, as well as directional lock mechanisms for swivel castors to help improve your waste management.

The Tug Rise is designed to improve safety and efficiency, whilst reducing the risk of accidents that can occur when manually moving very heavy loads.

Typical applications

Suitable for moving heavy bins and trolleys on sloped driveways/ramps, around high-rise building/apartment basements, or around caravan parks.

Features

Tow capacity	• 1000 kg up a 15 degree incline.
