Order code: SIMPLUS150HY1800

Fallshaw castors

Fallshaw's Australian-made premium-quality stainless steel castors have been designed to withstand corrosive environments.

With load capacities ranging from 85 to 500 kg per castor, wheel diameters are available in 75, 100, 125, 150 and 200 mm.

A wide range of forks and wheel types are available including bouncing rubber and energy absorbent plastics.

Fitting and maintenance

Serviced Equipment is a leading provider of preventative maintenance and breakdown repair services for the health and industrial sectors, and the authorised service agent for Fallshaw and Electrodrive.

Staff are well trained and comply with relevant standards and certification, including but not limited to:

- iPRO Live certification (essential within the Healthcare Sector)
- Electrical safety checks to Standards—AS/NZS 3760 and 3551
- Asset management and database management to comply with AS/NZS 3551

Work includes providing certificates, service history, tagging and record keeping to ensure full compliance as part of formal audit programs.

Their expert knowledge on wheel and castor selection and fitting means you can have the right castor fitted correctly.
