A safety message from

Electrodrive

Move equipment safely with Electrodrive Powered Tugs

Safe. Move trolleys and equipment safely by maximising forward vision, reducing the risk of collisions and the risk of back and side strains.

Simple. No license is required to operate a tug and it is easy to customise attachments to trolleys.

Strong. Tow up to 10 tonnes with a single operator.

Quiet. Smooth operation with zero emissions and low maintenance.

Local. Our powered tugs are manufactured right here in Australia.
